ABOUT OUR COMPANY

A Brief Story About The Company

TechFius Orbit Pvt. Ltd. is redefining how technology transforms businesses, communities, and lives. From rural empowerment initiatives to international enterprise projects, we specialize in bridging the digital divide with a comprehensive range of services including SAP, Fiori, ABAP, AWS, Web Development, Python, Java, and more. Our mission is clear: to make technology accessible, scalable, and inclusive — empowering everyone from school students and small businesses to global enterprises and creative professionals. But our story didn't start here. We began our journey in 2015 as RTunionforever Technologies, a small but ambitious tech startup focused on helping local institutions adopt digital solutions. Rooted in rural India and inspired by a vision of inclusive digital growth, we laid the foundation for what would become a much larger movement. By 2020, we rebranded as TechFius Pvt. Ltd., marking a major evolution in our capabilities. We expanded into enterprise IT services, EdTech, web platforms, digital marketing, and cloud technologies, building scalable solutions for a growing network of clients across India and abroad. In 2025, we entered a new era with the launch of Tech-Fius Orbit Pvt. Ltd. — a multidimensional company operating across Technology, Education, Media, Community Development, and Event Management.

VISION

To be a global leader in digital innovation, empowering individuals, communities, and enterprises through accessible, scalable, and socially responsible solutions — where technology, education, creativity, and collaboration converge to build a more inclusive future.

MISSION

01

Empower individuals and businesses through quality digital services, cutting-edge training, and responsive support.

02

Drive growth by delivering cutting-edge technology solutions, from web development to ERP, CRM to support digital transformation across businesses.

03

Bridge the gap in global education by delivering accessible, AI-powered, and interactive learning platforms that support academic growth and professional upskilling

04

Lead the new era of entertainment and digital content by offering high-quality production, streaming, and talent platforms for creators and audiences worldwide
